## RING TYER

**MADE IN THE USA**

The New Bunn Ring Tyer Still uses the same quality as back in 1943 when the founder created the Bunn Package Tyer for elongated bundles. The New Bunn Ring Tyer still uses the quality Bunn Tying Head System, that has stood the test of time since 1907. Now we've added a new twist. The New Bunn Ring Tying Machine has many options available which will increase production flow, reduce downtime, lower maintenance costs, while improving production.

Our New Electronic Control System adds flexibility to easily interface with other equipment in your shop to enhance your bundling requirements.
